

Rustic Art: Menstrual Cup

Copper

The Future

A menstrual Cup is a type of female hygiene product which is usually made of medical grade silicone, shaped like a bell and is flexible.

It is worn inside the vagina during menstruation to catch menstrual fluid (blood). It is a healthy, reusable and eco-friendly substitute to the Sanitary Napkins and Tampons.

Unlike tampons and pads, the Cup collects menstrual fluid rather than absorbing it.

It is the Future !!

Closer look the product

Details of the product
